

# pushTAN: Integration into the app "Sparkasse"

The following instruction refers to a device with the operating system "iOS". By using a device with another OS there may be some differences to this manual.

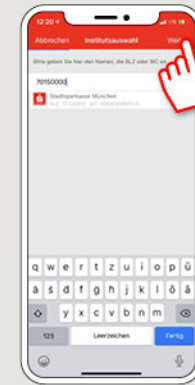

**1** Open "Sparkasse" by clicking on the app icon. Then type in your password. Choose "bank account" ("Bankkonto") next. If you already set up one or more accounts go to "financial overview" ("Finanzstatus") and select "edit" ("Bearbeiten") on the bottom left. Afterwards select "+" to add another account.

**2** Choose account type "bank account" ("Bankkonto").

**3** Now enter the name or bank code of your sparkasse.

**4** Enter your login name and confirm by choosing "next" ("Weiter").

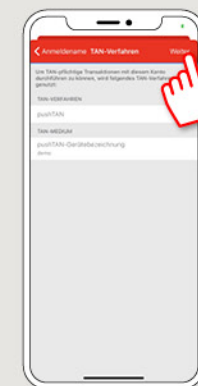

**5** Please enter the PIN you chose within the setup and press "OK" to confirm. Then choose "next" ("Weiter").  
(Please note: Not your password from 1)

To set up pushTAN please use the instruction "pushTAN: First Setup".

**6** Complete the process by choosing "next" ("Weiter") again.

Now pushTAN is set up as a security medium to all of your accounts of this institute.
